

Hariprashad Ravikumar

PhD Candidate in Physics
New Mexico State University

Website: hariprashad-ravikumar.github.io

LinkedIn: linkedin.com/in/hariprashad-ravikumar

GitHub: github.com/Hariprashad-Ravikumar

Email: hari1729@nmsu.edu

Phone: +1 575-249-9610

Education

PhD in Physics, New Mexico State University, USA

Aug 2021 – July 2026 (expected)

MS in Physics, New Mexico State University, USA

Aug 2021 – May 2024

MSc in Physics, NIT Jalandhar, India

July 2019 – May 2021

BSc in Physics, Dr. N.G.P. Arts and Science College, India

June 2015 – May 2018

Technical Skills

Programming Python, C++, Bash, JavaScript, Lua, HTML/CSS, YAML

ML / DL Pandas, Scikit-learn, TensorFlow, PyTorch, NumPy

Cloud & MLOps Azure (App Service, Functions), AWS (Lambda, S3, API Gateway), Docker, GitHub

Data & Viz SQL, Matplotlib, JupyterLab

APIs Flask, FastAPI, RESTful APIs

Methods & HPC Regression, Monte Carlo, HPC clusters, Statistical modeling

PhD Research

Doctoral Advisor: Dr. Michael Engelhardt (New Mexico State University, USA)

- **Lattice QCD Calculations of TMDs:** Calculating the longitudinal momentum fraction dependence of Transverse Momentum Dependent Parton Distribution Functions (TMDs) using lattice QCD, which is based on Monte Carlo simulations of discretized space-time fields. The analysis also utilizes PySR symbolic regression, a machine learning (ML) technique, to extract analytical functions from the lattice data.

External Research Collaborations

Collaborators: Dr. Rajan Gupta and Dr. Tanmoy Bhattacharya (Los Alamos National Laboratory, USA)

- **Lattice QCD Calculations of CP Violation Contributions to nEDM:** Conducting lattice QCD calculations of the hadronic matrix elements needed to connect nucleon Electric Dipole Moments (EDMs) to Standard Model (SM) and Beyond Standard Model (BSM) physics. Supported by a Travel Grant from the New Mexico Consortium at Los Alamos.

Collaborator: Dr. Chueng-Ryong Ji (North Carolina State University, USA)

- **Interpolating Conformal Algebra:** Studying the conformal invariance of quantum fields in the interpolating form dynamics, where the interpolation angle parameter spans between the instant form dynamics (IFD) and the light-front dynamics (LFD).

Selected Short-Term Projects

- **AI-DataScience-Lab: Cloud-Hosted Forecasting App** GitHub Repository
Built an end-to-end data-science platform (v1.0.0 Beta) that lets users upload CSV files, cleans data with `pandas`, trains a `scikit-learn` linear-regression model, and returns forecasts with R^2 and MSE metrics. Integrated OpenAI GPT-3.5 to auto-generate natural-language data summaries and used `matplotlib` for interactive plots. Deployed the Python (Flask) backend on Microsoft Azure App Service with CI/CD via GitHub Actions; static frontend served through GitHub Pages. Designed a modular architecture to add polynomial, ridge, and time-series models in future releases. You can access the frontend of the app at: <https://hariprashad-ravikumar.github.io/AI-DataScience-Lab>
- **HariBot: AI-Powered Chatbot Integration** GitHub Repository
Developed and deployed a custom AI chatbot using the OpenAI API to enhance user interaction on my personal website. The backend, implemented in Python (Flask), is hosted on Render for scalable cloud performance, while the frontend is integrated into my GitHub Pages for a responsive, cross-device experience. The chatbot delivers real-time responses about my background, research, and professional experience.
- **\mathbb{Z}_2 Lattice Gauge Monte Carlo Simulation** GitHub Repository
Developed a Python simulation of \mathbb{Z}_2 lattice gauge theory using Markov chain Monte Carlo methods and Metropolis algorithms. Explored confinement phenomena through Wilson loop measurements and benchmarked results against analytical predictions. Served as foundational computational experience in stochastic sampling and lattice QCD simulation ahead of full PhD research.

Certifications

- (Apr 2025) **Google Advanced Data Analytics Professional Certificate**
Credential ID: U0HU8UKT89L4
- (Apr 2025) **Kaggle Intro to Machine Learning**
[View Certificate](#)

Selected Talks

- (Jun. 07, 2024) *"Lattice QCD Calculations of Sivers TMD x Dependency"*, 2024 CFNS Summer School on the Physics of the Electron-Ion Collider, Center for Frontiers in Nuclear Science, Stony Brook University, NY, USA
- (May 16, 2024) *"Lattice QCD Calculations of x Dependence of Sivers TMD"*, T-2 Seminar, Theoretical Division (T-2), Los Alamos National Laboratory, USA
- (June 15, 2023) *"Lattice QCD Calculations of TMDs"*, HUGS Student Seminar Presentation, Thomas Jefferson National Accelerator Facility, Newport News, USA
- (Dec. 02, 2021) *"Interpolating Conformal Algebra Between the Instant Form and the Front Form of Relativistic Dynamics"*, Light Cone 2021: Physics of Hadrons on the Light Front, Jeju Island, South Korea

For a full list of talks, please visit: hariprashad-ravikumar.github.io/talks

MSc Thesis

Ravikumar, H. (2021, August). *The Poincaré algebra interpolation between instant form dynamics (IFD) and light-front dynamics (LFD)* (Master's thesis). National Institute of Technology, Jalandhar, India.

Supervised by Prof. Harleen Dahiya (NIT Jalandhar) in collaboration with Prof. Chueng-Ryong Ji (North Carolina State University).

Selected Summer Programs

- **Jun 03 – Jun 14, 2024:** CFNS Summer School on the Physics of the Electron-Ion Collider, Center for Frontiers in Nuclear Science, Stony Brook University, New York, USA
- **May 30 – Jun 16, 2023:** Hampton University Graduate Studies (HUGS) Summer Program, Thomas Jefferson National Accelerator Facility, Newport News, USA
Awarded the HUGS Scholarship.
- **Jan 20 – Jan 26, 2022:** TMD Winter School, Santa Fe, USA
- **Jun 21 – Jun 25, 2021:** National Nuclear Physics Summer School (NNPSS), Universidad Nacional Autónoma de México (Mexico) and Indiana University (USA)

Awards & Highlights

- Recipient of the **2023 George and Barbara Goedecke Physics Excellence Fund Scholarship**, awarded by the NMSU Physics Department
- Recipient of the **2021 Graduate Success Scholarship**, awarded by the NMSU Graduate School
- Nominated for participation in the **70th Lindau Nobel Laureate Meeting (2020)**, Germany, by the Department of Science & Technology, Government of India
- Recipient of the **2018 Indian Academy of Sciences Summer Research Fellowship**

Graduate Assistantships

Research Assistant, NMSU (2022–2025):

Conducting research in Lattice QCD under Dr. Michael Engelhardt, including symbolic regression (PySR), high-performance computing, and theoretical modeling as part of PhD dissertation work.

Teaching Assistant, NMSU (2021–2023):

Conducted undergraduate physics labs, led discussion sections, and provided tutoring support for Physics (E&M and Mechanics) courses.
